Insurance and Safety Rating

Delta Maintenance Group carries workers compensation insurance through Louisiana Contractors Mutual. Our insurance agent is Bobby Fontenot at Gulf States Insurance, (337) 555-0192. We have had some claims in recent years but are working to improve our safety record. Our modification rate has been above 1.0 for the past several years due to two significant claims in 2023 and 2024. We believe our rate will improve as those claims close out.

Our Safety Record

Delta Maintenance Group is committed to safety. We had four recordable incidents in 2025 and five in 2024. We have been working hard to reduce injuries through toolbox talks and JSA reviews. In 2024 we had one

worker who was seriously injured in a fall from scaffolding. That worker has since returned to work. We received an OSHA citation in 2024 for fall protection violations which we are contesting. We also received a willful citation in 2023 for failure to implement lockout/tagout procedures during a maintenance activity. That citation has been settled. We have not had any fatalities.

Training

Our workers receive safety training as required. Most employees have OSHA 10 cards. We conduct weekly toolbox talks and monthly safety meetings. Training records are maintained at our main office.

Insurance Coverage

We carry general liability insurance (\$1,000,000), auto liability (\$500,000), and workers compensation (statutory). We do not currently carry umbrella liability coverage but can obtain it if required.

Summary

Delta Maintenance Group is a small, family-owned contractor with deep roots in the Lake Charles industrial community. While our safety metrics have not always met industry benchmarks, we are committed to improvement and believe we can perform work safely at your facility. We welcome the opportunity to discuss our qualifications further.

OVERALL RESULT: DISQUALIFIED — Multiple critical deficiencies. Not recommended for site access pending full remediation.
